

3M

Loop & Hook (Black)

Product Description

3M Hook and Loop Fastener is a best in class fastener that provides design flexibility and fast product assembly. With its high performance rubber-based pressure sensitive adhesive backing, this fastener allows for easy and convenient attachment to a variety of substrates, including plastics.

Adhesive Type	High Performance Rubber Adhesive
Application	Apparel Closure, Cushion Attachment, Floor Mat Attachment, Graphic Attachment, Gym Mat Attachment, Interior Mirror & Fixture Attachment, Light Panel Attachment, Mounting & Trim Attachment, Mounting Airplane Seat Covers, Orthopedic Braces, Tarp Hanging, Temporary Fastening, Trade Show Exhibits, Upholstery & Seating Attachment
Brands	3M
Closure Life	5000
Length(Metric)	50mm
Wide(Metric)	25mm
Industries	Appliance, Construction, Electronics, Furniture, General Industrial, MRO, Medical, Military & Government, Retail, Signage, Specialty Vehicles, Transportation
Primary Liner Thickness (Metric)	0.08 mm
Product Color	White
Product Form	Pieces
Product Type	Hook & Loop

Delivers Durability

3M Hook and Loop Fastener is designed to improve appearance, function, and productivity when compared to a traditional fastener. No drilling, no tightening. 3M fasteners offer greater design flexibility, faster product assembly, smoother and cleaner exterior surfaces and improved product performance in many applications. The hook and loop fasteners are coated on the backside with a firm synthetic rubber adhesive that performs well in many applications. This pressure sensitive adhesive is suited for attachment to a wide variety of surfaces, including low surface energy substrates such as polyethylene, polypropylene, etc.

Recommended Applications

- Securing fabric to furniture cushions
- Point of purchase display and signage
- Indoor general industrial applications

Secure, Repeated Closures

3M™ Hook and Loop Fasteners offer great design flexibility, fast product assembly, smooth and clean exterior surfaces and excellent product performance in many applications. 3M Hook and Loop Fasteners consist of hooks and loops which engage to form a quick fastening attachment. To disengage the attachment, simply pull the strips apart by hand.

The use of a pressure sensitive adhesive reduces or eliminates the need for sewing, solvent activation, dielectric or ultrasonic bonding or bulk adhesive bonding. Pressure sensitive adhesive products can be applied manually or automatically using a variety of equipment choices.

Bringing it All Together

3M™ Hook and Loop Fasteners provide the strong, tough attachment solutions you need. Simply press together and the tiny, stiff hooks mesh with pliable loops to create a quick, secure fastening system. Backed with a variety of 3M adhesive technologies, you can easily meet application demands that require thousands of easy opening and closings.
